### BAR MODEL PRACTICE

Makena and Sierra kept track of how many times Mr. Moss called them by their sister's name. Makena counted 18 goofs in one day. ~~Sydney~~ Sierra counted only 9 goofs. How many goofs did Mr. Moss make?

*Number Model* \_\_\_\_\_

Raveend, Lara, and Caleb had a tricycle race. (They were a bit big for the trikes, but they made it work.) They each peddled quickly, but eventually all three of them tipped over. Lara made it 18 feet before tipping over. Raveend made it 29 feet before he fell. Caleb was the winner: He made it 88 feet before he fell. (OMG!) How far did they bike ALL TOGETHER?
